

## Wynsoft™ Fulfillment

Fast, efficient and reliable order fulfillment is the key to successful distribution and fulfillment operations. Whether you are picking, packing, putting, batch picking or bringing inventory to personnel, our engine will support your operations in the most effective manner possible. Our Fulfillment Module can help to do it faster, more accurately and with greater efficiency than you have experienced and works with best of breed voice, light and robotic solutions for pick-and-pass, zone leveling, goods-to-person as well as hybrid configurations.

Wynsoft™ Fulfillment Module empowers operations and staff to organize, sequence, release and complete work to your operations when and where it is needed. In addition to optimizing the fulfillment operations, the module also records milestones of movement and provides the archival of data for subsequent examination and interrogation by the Wynsoft™ Visibility Module.

### Flexible Selection Solutions

- Voice-directed and light-directed
- HYBRID
- Pick-to-cart
- Pick-to-LAN or pallet
- Cross dock full pallet
- Batch pick
- Wave pick to consolidation
- Value added services

### Our Fulfillment Module features:

- Dramatically Increases selection accuracy and productivity
- Provides management-level visibility to warehouse operations
- Leads to higher levels of operator accountability
- Provides useful statistics and alerts
- Enables wave release and completion
- Is schedule driven
- Improves safety by allowing workers to focus on the task at hand

Wynsoft™ Fulfillment will direct all order selection activities in your operation. Whether you deploy voice-directed, light-directed, pack stations or traditional selection, Wynsoft™ Fulfillment will provide the service level and accuracy for which you strive to obtain.
